

LDH Redesigned Website

The Louisiana Department of Health (LDH) launched a redesigned website on April 2, 2025.

The redesigned website, at www.Ldh.la.gov, offers an improved user experience with streamlined content, easy navigation, and clear information; focusing on simplifying heavily accessed pages like Medicaid and Vital Records. Each office maintains its own homepage for administrative details.

The redesign centralizes information for different audiences, including providers and businesses, and features an upgraded locations directory and a comprehensive "LDH Resources" page.

Here are a few links to locations you might commonly utilize:

LDH Informational Bulletins:
