Nondiscrimination Statement

It is the policy of UnitedHealthcare Community Plan not to discriminate on the basis of race, color, national origin, sex, age or disability. UnitedHealthcare Community Plan has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by Section 1557 of the Affordable Care Act (42 U.S.C. 18116) and its implementing regulations at 45 CFR part 92, issued by the U.S. Department of Health and Human Services. Section 1557 prohibits discrimination on the basis of race, color, national origin, sex, age or disability in certain health programs and activities. Section 1557 and its implementing regulations may be examined in the office of Civil Rights Coordinator who has been designated to coordinate the efforts of UnitedHealthcare Community Plan to comply with Section 1557.

Any person who believes someone has been subjected to discrimination on the basis of race, color, national origin, sex, age or disability may file a grievance under this procedure. It is against the law for UnitedHealthcare Community Plan to retaliate against anyone who opposes discrimination, files a grievance, or participates in the investigation of a grievance.

You can send a complaint to:

Civil Rights Coordinator
UnitedHealthcare Civil Rights Grievance
P.O. Box 30608
Salt Lake City, UTAH 84130

UHC_Civil_Rights@uhc.com

Procedure:

- Grievances must be submitted to the Section 1557 Coordinator within 60 days of the date the person filing the grievance becomes aware of the alleged discriminatory action.
- A complaint must be in writing, containing the name and address of the person filing it. The complaint must state the problem or action alleged to be discriminatory and the remedy or relief sought.
- The Section 1557 Coordinator (or her/his designee) shall conduct an investigation of the complaint. This investigation may be informal, but it will be thorough, affording all interested persons an opportunity to submit evidence relevant to the complaint. The Section 1557 Coordinator will maintain the files and records of UnitedHealthcare Community Plan relating to such grievances. To the extent possible, and in accordance with applicable law, the Section 1557 Coordinator will take appropriate steps to preserve the confidentiality of files and records relating to grievances and will share them only with those who have a need to know.
- The Section 1557 Coordinator will issue a written decision on the grievance, based on a preponderance of the evidence, no later than 30 days after its filing, including a notice to the complainant of their right to pursue further administrative or legal remedies.

The availability and use of this grievance procedure does not prevent a person from pursuing other legal or administrative remedies, including filing a complaint of discrimination on the basis of race, color, national origin, sex, age or disability in court or with the U.S. Department of Health and Human Services, Office for Civil Rights. A person can file a complaint of discrimination electronically through the Office for Civil Rights Complaint Portal, which is available at: <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf> by mail or phone at:

U.S. Department of Health and Human Services

Room 509F, HHH Building

Washington, D.C. 20201

1-800-368-1019, 1-800-537-7697 (TDD)

Complaint forms are available at: <http://www.hhs.gov/ocr/office/file/index.html>. Such complaints must be filed within 180 days of the date of the alleged discrimination.

UnitedHealthcare Community Plan will make appropriate arrangements to ensure that individuals with disabilities and individuals with limited English proficiency are provided auxiliary aids and services or language assistance services, respectively, if needed to participate in this grievance process. Such arrangements may include, but are not limited to, providing qualified interpreters, providing taped cassettes of material for individuals with low vision, or assuring a barrier-free location for the proceedings. The Section 1557 Coordinator will be responsible for such arrangements.

Declaración Antidiscriminatoria

La política de UnitedHealthcare Community Plan es la de no discriminar en base a la raza, color, nacionalidad, sexo, edad o discapacidad. UnitedHealthcare Community Plan ha adoptado un procedimiento interno en casos de agravios para proveer una pronta y justa resolución a reclamaciones en las cuales se alegue cualquier acción prohibida por la Sección 1557 del Acta de Cuidados Asequibles (Affordable Care Act - 42 U.S.C. 18116) y la implementación de sus regulaciones en 45 CFR parte 92, emitidas por el Departamento de Salud y Recursos Humanos de los Estados Unidos (U.S. Department of Health and Human Services). La Sección 1557 prohíbe la discriminación en bases de la raza, el color, la nacionalidad, el sexo, la edad o la discapacitación en ciertos programas de salud y de actividades. La Sección 1557 y sus regulaciones implementadas pueden ser examinadas en la oficina del Coordinador de los Derechos Civiles, quien es una persona que ha sido designada para coordinar los esfuerzos de UnitedHealthcare Community Plan para cumplir con los requisitos de la Sección 1557.

Cualquier persona que crea que alguien ha sido discriminado en base a su raza, color, nacionalidad, sexo, edad o discapacidad puede presentar una reclamación siguiendo este procedimiento. Es contra la ley que UnitedHealthcare Community Plan tome represalias en contra de cualquier persona que se oponga a la discriminación, presente una reclamación o participe en una investigación acerca de una acción discriminatoria.

Usted puede enviar una queja a:

Civil Rights Coordinator
UnitedHealthcare Civil Rights Grievance
P.O. Box 30608
Salt Lake City, UTAH 84130
UHC_Civil_Rights@uhc.com

Procedimiento:

- Las reclamaciones deben presentarse ante el Coordinador de la Sección 1557 dentro de los primeros 60 días, a partir de la fecha en que la persona que presenta la reclamación tomó conciencia de ser objeto de una posible acción discriminatoria.
- Una reclamación debe presentarse por escrito y contener el nombre y la dirección de la persona que la presenta. La reclamación debe declarar cual es el problema o la posible acción discriminatoria y cuál es la solución o asistencia que se desea obtener.
- El Coordinador de la Sección 1557 (o la persona que se designe) podrá conducir una investigación acerca de esta reclamación. Esta investigación puede ser informal, pero será exhaustiva, ofreciendo a todas las personas interesadas una oportunidad para presentar evidencias relevantes a la reclamación. El Coordinador de la Sección 1557 conservará en su poder todos los expedientes y records de UnitedHealthcare Community Plan relativos a tales reclamaciones. En la medida posible y de acuerdo a las leyes vigentes aplicables,

el Coordinador de la Sección 1557 tomará todas las acciones necesarias para preservar la confidencialidad de los expedientes y records relativos a las reclamaciones y compartirá la información solamente con aquellas personas que tengan la necesidad de conocer esa información.

- El Coordinador de la Sección 1557 emitirá una decisión acerca de la reclamación, basándose en la preponderancia de la evidencia, no más tarde de 30 días a partir de la fecha en que se presentó esta reclamación y se incluirá una notificación para el demandante acerca de su derecho para proseguir con esta reclamación por medio de otras resoluciones legales o administrativas.

La disponibilidad y el uso de este procedimiento de reclamaciones no le impide a la persona que la presenta, proseguir con otras reclamaciones legales o administrativas, incluyendo la presentación de una reclamación por discriminación basada en la raza, color, nacionalidad, sexo, edad o discapacidad en la corte o ante el Departamento de Salud y Recursos Humanos de los Estados Unidos, Oficina de los Derechos Civiles (U.S. Department of Health and Human Services, Office for Civil Rights). Una persona puede presentar una reclamación por discriminación electrónicamente a través del portal de la Oficina de Reclamaciones para los Derechos Civiles (Office for Civil Rights Complaint Portal), disponible en: <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf> o hacerlo por correo a la dirección:

U.S. Department of Health and Human Services

Las formas para las reclamaciones se encuentran disponibles en: <http://www.hhs.gov/ocr/office/file/index.html>. Estas reclamaciones deben presentarse dentro de los primeros 180 días a partir de la fecha en que esta posible acción discriminatoria tuvo lugar.

UnitedHealthcare Community Plan llevará a cabo todos los arreglos necesarios para asegurar que a las personas con discapacidades o aquellas personas con un limitado dominio del idioma inglés se les provea con apoyos auxiliares y servicios o asistencia en el lenguaje, respectivamente, si existe la necesidad de que estas personas tengan que participar en este procedimiento de reclamación. Tales arreglos pueden incluir, pero no estar limitados a, proveer intérpretes calificados, proveer casetes contenido el material para aquellos individuos con problemas de visión o asegurando localidades existentes para los procedimientos que sean libres de barreras que impidan el acceso a los procedimientos. El Coordinador de la Sección 1557 será la parte responsable para esos arreglos.

Listing of preferred drugs

Introduction

UnitedHealthcare Community Plan is pleased to provide this **Listing of Preferred Drugs** to be used when prescribing for patients covered by the pharmacy benefit plan offered by UnitedHealthcare Community Plan. The drugs listed in this Listing of Preferred Drugs are intended to provide sufficient options to treat patients who require treatment with a drug from that pharmacologic or therapeutic class. The drugs listed in the UnitedHealthcare Community Plan Listing of Preferred Drugs have been reviewed and approved by the Pharmacy and Therapeutics Committee. The drugs have been selected to provide the most clinically appropriate and cost-effective medications for patients who have their drug benefit administered through UnitedHealthcare Community Plan. It is also recognized there may be occasions where an unlisted drug is desired for proper medical management of a specific patient. In those infrequent instances, the unlisted medication may be requested through the prior authorization process.

The drugs represented have been reviewed by the Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The Listing of Preferred Drugs is reflective of current medical practice as of the date of review.

This edition incorporates drugs added to the Listing of Preferred Drugs since the last edition as well as numerous revisions to the prescribing information based on changes in pharmacotherapy. Comments and suggestions from practicing physicians have also been incorporated to ensure that the UnitedHealthcare Community Plan Listing of Preferred Drugs is reflective of current medical practice.

Notice

The information contained in this Listing of Preferred Drugs and its appendices is provided by UnitedHealthcare Community Plan, solely for the convenience of medical providers. UnitedHealthcare Community Plan does not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature.

This Listing of Preferred Drugs is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in their choice of prescription drugs.

Preface

UnitedHealthcare Community Plan assumes no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information. National guidelines can be found on the websites listed in the website section or go to the National Guideline Clearinghouse site at guideline.gov.

The UnitedHealthcare Community Plan Listing of Preferred Drugs is organized by sections. Each section includes therapeutic groups identified by either a drug class or disease state. Products are listed by generic name. Brand names are included as a reference to assist in product recognition. Unless exceptions are noted, generally all applicable dosage forms and strengths of the drug cited are included in the Listing of Preferred Drugs. Generics should be considered the first line of prescribing.

The UnitedHealthcare Community Plan Listing of Preferred Drugs covers selected over-the-counter (OTC) products. You are encouraged to prescribe OTC medications when clinically appropriate.

Pharmacy and therapeutics (P&T) committee

The P&T Committee includes physicians and pharmacists who are not employees or agents of UnitedHealthcare Community Plan or its affiliates. They must adhere to the Ethics Policy standards of the P&T Committee. UnitedHealthcare Community Plan medical directors and pharmacists also participate in the P&T Committee. The P&T Committee meets quarterly to discuss a variety of issues. Those issues pertaining to pharmaceutical selection and pharmacy program management are communicated quarterly. This newsletter is distributed to all participating physicians who have received the preferred drug listing. Preferred drug listing decisions are also communicated quarterly on the UnitedHealthcare Community Plan internet site.

Outpatient prescription drug benefit covered medications

Medically necessary outpatient prescription drugs are covered when prescribed by a provider licensed to prescribe federal legend drugs or medicines. Some items are covered only with prior authorization. Eligibility for Outpatient Prescription Drug Benefits is based on the individual member's benefit plan.

Product selection criteria

The P&T Committee considers clinical information on new-to-market drugs that are typically included in an outpatient pharmacy benefit. The evaluation includes all or part of the following:

- Safety
 - Efficacy
 - Comparison studies
 - Approved indications
 - Adverse effects
 - Contraindications/Warnings/Precautions
 - Pharmacokinetics
 - Patient administration/compliance considerations
 - Medical outcome and pharmacoeconomic studies

When a new drug is considered for PDL inclusion, it will be reviewed relative to similar drugs currently included in the UnitedHealthcare Community Plan PDL. This review process may result in deletion of drug(s) in a particular therapeutic class in an effort to continually promote the most clinically useful and cost-effective agents.

All the information in the PDL is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

Listing of preferred drugs product descriptions

To assist in understanding which specific strengths and dosage forms are covered on the Listing of Preferred Drugs, examples are noted below. The general principles shown in the examples can then usually be extended to other entries in the book. Any exceptions are noted in the drug list. There may also be a statement associated with a drug list that gives additional information about which specific products or dosage forms are covered.

Products covered include all strengths associated with the dosage form of the cited brand name product.

carvedilol Coreg

All strengths of Coreg would be covered by this listing.

Extended-release and delayed-release products require their own entry.

diltiazem sustained release

Dosage forms covered will be consistent with the category and use where listed.

Neomycin/polymyxin B/ Cortisporin

Hydrocortisone

As listed in the OTIC section, this is limited to the otic solution and suspension. From this entry the ophthalmic solution and ointment, and the topical cream cannot be assumed to be on the list unless there are entries for these products in the OPHTHALMIC and DERMATOLOGY sections of the Listing of Preferred Drugs.

When a strength or dosage form is specified, only the specified strength and dosage form is on the Listing of Preferred Drugs. Other strengths/dosage forms of the reference product are not

cefixime (400mg tabs only)

Drug tiers

The drugs listed in the PDL have different tiers. The tiers are listed in the grid below.

Tier Name	Drug Tier
Tier 1	Generic
Tier 2	Brand

Generic substitution

The UnitedHealthcare Community Plan Listing of Preferred Drugs **requires** generic substitution on the majority of products when a generic equivalent is available.

Generic substitution is a pharmacy action whereby a generic equivalent is dispensed rather than the brand name product. The PDL indicates generic availability in the “Covered Drug” column

If a brand name drug is medically necessary, please submit a prior authorization request.

The UnitedHealthcare Community Plan NDAC list sets a ceiling price for the reimbursement of certain multisource prescription drugs. This price will typically cover the acquisition of most generics but not branded versions of the same drug. The products selected for inclusion on the NDAC list are commonly prescribed and dispensed and have usually gone through the FDA’s review and approval process.

An important consideration for generic substitution is the knowledge that all approvals of generic drugs by the FDA since 1984, and many generic approvals prior to 1984, have a showing of bioequivalence between the generic versions and the reference brand product. To gain FDA approval:

1. The generic drug must contain the same active ingredient(s), be the same strength and the same dosage form as the brand name product.
2. The FDA has given the generic an “A” rating compared to the branded product indicating bioequivalence, and has determined the generic is therapeutically equivalent to the reference brand. The ratings of generic drugs are available by referring to the FDA reference, Approved Drug Products with Therapeutic Equivalence Evaluations (Orange Book).

When the above two criteria are met, a generic can be substituted with the full expectation that the substituted product will produce the same clinical effect and safety profile as the prescribed product. Drug products that have a narrow therapeutic index (NTI) can also be guided by these principles. It is not necessary for the health care provider to approach any one therapeutic class of drug products (e.g., NTI drugs) differently from any other class, when there has been a determination of therapeutic equivalence by the FDA for the drug products under consideration. Also, additional clinical tests or examinations by the physician are not needed when a therapeutically equivalent generic drug product is substituted for the brand name product.

There are now many brand name products that are repackaged or distributed under a generic label. The generic label version should always be considered therapeutically equivalent and substitutable for the source branded product.

Drug efficacy study implementation (DESI) drugs

Drugs first marketed between 1938 and 1962 were approved as safe but required no showing of effectiveness for FDA approval. Beginning in 1962, all new drugs were required to be both safe and effective before they could be marketed. This legislation also applied retroactively to all drugs approved as safe from 1938-1962. The DESI program was established by the FDA to review the effectiveness of these pre-1962 drugs for their labeled indications, and a determination of “fully effective” was made for most of these products and they remain in the marketplace. A few DESI products remain classified as “less than fully effective” while awaiting final administrative disposition. Also, classified as DESI are many products listed as identical, similar, or related to actual DESI products. UnitedHealthcare Community Plan’s Listing of Preferred Drugs does not cover DESI “less than fully effective” drug products.

Plan exclusions

The following drug categories are excluded from coverage under the outpatient pharmacy benefit and are not part of the UnitedHealthcare Community Plan Listing of Preferred Drugs.

- DESI drugs
- Anti-obesity agents
- Experimental / research drugs
- Cosmetic drugs
- Nutritional / diet supplements
- Blood and blood plasma products
- Agents used to promote fertility
- Agents used for erectile dysfunction
- Agents used for cosmetic hair growth
- Drugs from manufacturers that do not participate in the FFS Medicaid Drug Rebate Program
- Diagnostic products
- Medical supplies and DME except as listed: insulin syringes, insulin needles, lancets, alcohol swabs, spacers, preferred diabetes test strips, peak flow meters (Astech, Assess, Peak Air brands, max two per year), vaporizer (limit of 1 per 3 years), humidifier (limit of 1 per 3 years)

Days supply dispensing limitations

UnitedHealthcare Community Plan members may receive up to a one- month supply of a specific medication per prescription order or prescription refill. A medication may be reordered or refilled when ninety percent (90%) of the medication has been utilized for a controlled substance and eighty-five percent (85%) of the medication has been utilized for a non-controlled substance. If a claim is submitted before 90% of the medication has been used for a controlled substance or submitted before 85% of the medication has been used for a non-controlled substance, based on the original day supply submitted on the claim, the claim will reject with a “refill too soon” message.

Mandatory generic substitution

The UnitedHealthcare Community Plan PDL requires mandatory generic substitution on the vast majority of products when a generic equivalent is available; however, brand name drugs may be covered in certain situations by requesting a prior authorization. The UnitedHealthcare Community Plan PDL prior authorization (PA) list does not include branded items where a generic equivalent is covered.

Prior authorization of non-PDL medications

The drugs in the UnitedHealthcare Community Plan Listing of Preferred Drugs have been selected to provide the most clinically appropriate and cost-effective medications for patients who have their drug benefit administered through UnitedHealthcare Community Plan. It is also recognized that there may be occasions where an unlisted drug is desired for the proper medical management of a specific patient. In those infrequent instances, the prior authorization process reviews requests for unlisted medications the physician may consider medically necessary for patient management.

Requests for these exceptions should be either made in writing by the physician and faxed or called into:

UnitedHealthcare Community Plan
Pharmacy Services Department
Fax: 866-940-7328
Phone: **800-310-6826**

A prior authorization request form is available in the UnitedHealthcare Community Plan provider manual and should be used for all prior authorization requests if possible. Appropriate documentation must be provided to support the medical necessity of the non-preferred drug request. The UnitedHealthcare Community Plan Pharmacy Department will respond to all requests in accordance with state requirements.

Physicians are requested to adhere to this Listing of Preferred Drugs when prescribing for patients covered by their pharmacy benefit plan offered by UnitedHealthcare Community Plan. If a pharmacist receives a prescription for a non-preferred drug, the pharmacist should contact the prescribing physician and request that the prescription be changed to a medication included in this Listing of Preferred Drugs. If a preferred alternative is not appropriate the physician should then be instructed to contact the Plan for a prior authorization.

Please contact the UnitedHealthcare Community Plan Pharmacy Services Department at **800-310-6826** with questions concerning the prior authorization process.

Non-preferred drugs 3-day temporary supply overrides

To ensure the use of PDL drugs, all non- PDL drugs should be discussed with the prescribing physician. **If you cannot speak to the physician immediately, and there is an immediate need for the medication, the claim processing system will accept an override to permit a one-time dispensing of a 3-day supply of the newly prescribed non-PDL drug.** The pharmacy should submit a claim for a 3 day supply, with a PA Type of 8 and Prior Authorization number of “072”. Please note that non-preferred drugs are available for a 3-day supply, however availability is subject to the benefit design. For assistance, pharmacies may call **800-310-6826**.

Quantity limitations (QL)

Prescriptions for monthly quantities greater than the indicated limit require a prior authorization request.

Quantity limits based on efficient medication dosing

The Efficient Medication Dosing Program is designed to consolidate medication dosage to the most efficient daily quantity to increase adherence to therapy and also promote the efficient use of health care dollars.

The limits for the program are established based on FDA approval for dosing and the availability of the total daily dose in the least amount of tablets or capsules daily. Quantity Limits in the prescription claims processing system will limit the dispensing to consolidate dosing. The pharmacy claims processing system will prompt the pharmacist to request a new prescription order from the physician.

Specialty pharmaceutical management program

UnitedHealthcare Community Plan is continuously looking for ways to provide high quality cost effective care for Plan members. The Specialty Pharmaceutical Management Program helps UnitedHealthcare Community Plan to achieve these goals. Injectable medications that are part of this program require plan authorization and are not available through the retail pharmacy network.

To obtain authorization, the provider must submit the appropriate Prior Authorization form to the UnitedHealthcare Community Plan Pharmacy Department via fax at 866-940-7328.

The UnitedHealthcare Community Plan Pharmacy Department will review and respond to all requests in accordance with state requirements, and if authorized for payment, UnitedHealthcare Community Plan will coordinate the delivery of the product to the member or provider.

Drugs that are part of this program and are on the Listing of Preferred Drugs are identified in this booklet by the designation “SP”.

Prior Authorization request forms can be requested by calling the UnitedHealthcare Community Plan Pharmacy Department at **800-310-6826**.

Medications requiring diagnosis

UnitedHealthcare Community Plan requires that the diagnosis for prescriptions in certain classes match the FDA-approved use or a use supported by current published evidence. Drugs in scope will list “Diagnosis required” in the Requirements and Limits or with the drug class name on the PDL.

The diagnosis will be verified at the point-of-sale by the pharmacy claims processing system. If a matching diagnosis is not found in the medical claim file or on the pharmacy drug claim, the prescription will be rejected at the pharmacy. The pharmacist may then contact the prescriber to verify the diagnosis and submit it on the claim.

If the diagnosis provided still does not match the approved use, prior authorization may be requested through the standard process by faxing a request to 866-940-7328.

Step therapy (ST)

The following preferred drugs are routinely covered only after a sufficient trial of an indicated first-line agent has been adequately tried and failed. These medications may also be requested through the Prior authorization process. While lower cost preferred alternatives may be appropriate in many instances, other non-preferred alternatives are available with prior authorization (PA).
