## **INTRODUCTION**

This Preferred Drug List (PDL) Reference Guide gives you information that explains how covered medications are selected; exclusions and limitations; and steps to take when a medication is not included on the PDL.

It also gives you at-a-glance specifics on the medications and the coverage level for each to assist you when prescribing for your patients with UnitedHealthcare Community Plan pharmacy benefits.

The drugs on our PDL are reviewed and approved for inclusion by our Pharmacy and Therapeutics (P&T) Committee to provide the most clinically appropriate and cost-effective medications for UnitedHealthcare Community Plan patients. The Committee is comprised of UnitedHealthcare Community Plan medical directors and pharmacists, as well as physicians and pharmacists who are not employees or agents of UnitedHealthcare Community Plan or our affiliates.

The P&T Committee meets quarterly to discuss pharmaceutical selection and pharmacy program management. Decisions are posted at [UHCCommunityPlan.com](http://UHCCommunityPlan.com) and communicated quarterly by newsletter to all participating physicians who receive the PDL. This edition incorporates drugs added to the PDL since the last edition, as well as revisions to the prescribing information based on changes in pharmacotherapy.

## OVERVIEW

Our PDL is organized into sections. Each section includes therapeutic groupings identified by either a drug class or disease category.

Products with lower case text indicate the generic formulation. Product entries with all capital letters indicate a brand name formulation of the product. Unless exceptions are noted, all applicable dosage forms and strengths are included in the PDL.

## PDL PRODUCT DESCRIPTIONS

Please see the following examples of how medication strengths and dosage forms that we provide coverage for are described in the PDL. Any strength and dosage exceptions that do not follow these examples are noted in the PDL.

### STRENGTH

Products covered include all strengths associated with the dosage form of the cited product.

#### *Example:*

carvedilol (generic COREG)

All strengths of Coreg would be covered by this listing.

### EXTENDED RELEASE AND DELAYED RELEASE

Extended-release and delayed-release products require their own entry.

#### *Example:*

diltiazem ER (generic CARDIZEM CD)

### DOSAGE FORMS

Dosage forms covered will be consistent with the category and use where listed.

#### *Example:*

ciprofloxacin neomycin/polymyxin/ hydrocortisone (generic CORTISPORIN)

As listed in the Otic section, the previous example is limited to the otic solution and suspension. In this example, the ophthalmic solution, ointment and topical cream cannot be assumed to be on the list unless there are entries for these products in the Ophthalmic and Dermatology sections of the PDL.

**When a strength or dosage form is specified, only the specified strength and dosage form is on the PDL.** Other

strengths/dosage forms of the referenced product are not included.

#### *Example:*

citalopram 40 mg tabs

Celexa tabs

## PRODUCT SELECTION CRITERIA

The P&T Committee considers clinical information on new-to-market drugs that are typically included in an outpatient pharmacy benefit. The evaluation includes all or some of the following:

- Safety
- Efficacy
- Comparison studies
- Approved indications
- Adverse effects
- Contraindications/warnings/precautions
- Pharmacokinetics
- Patient administration/compliance considerations
- Medical outcome and pharmaco-economic studies

When a new drug is considered for PDL inclusion, it is reviewed relative to similar drugs currently included in the PDL. This review process may result in deletion of a drug from a particular therapeutic class in an effort to continually promote prescription of the most clinically useful and cost-effective drugs.

All information in the PDL is provided as a reference for drug therapy selection based on the patient's benefit plan coverage. Specific drug selection for an individual patient rests with the prescriber.

## OUTPATIENT PRESCRIPTION DRUG MEDICATIONS

Medically necessary outpatient prescription drugs are covered when prescribed by a provider licensed to prescribe federal legend drugs or medicines. Some drugs are covered only with prior authorization. Eligibility for outpatient prescription drug benefits and copayments are based on the patient's benefit plan. See the listing for each drug or the Prior Authorization section for more information.

## OVER-THE-COUNTER MEDICATIONS

The PDL covers select over-the-counter (OTC) products. You are encouraged to prescribe OTC medications when clinically appropriate.

## GENERIC SUBSTITUTION

The PDL requires generic substitution on the majority of products when a generic equivalent is available.

## MAXIMUM ALLOWABLE COST PRICING

The UnitedHealthcare Community Plan Maximum Allowable Cost (MAC) pricing list sets a ceiling price for the reimbursement of certain multisource prescription drugs. This price will typically cover most generics but not necessarily the branded versions of the same drug. The products selected for inclusion on the MAC list are commonly prescribed and dispensed and have usually gone through the Food and Drug Administration (FDA) review and approval process.

## BRAND NAME DRUGS

The PDL prior authorization list does not include branded items where a generic equivalent is covered. However, brand name drugs may be covered in certain situations by requesting prior authorization. If a brand name drug is medically necessary, please submit a prior authorization request. See the Prior Authorization section for more details.

## PLAN EXCLUSIONS AND LIMITATIONS

### EXCLUSIONS

The following drug categories are excluded from coverage under the outpatient pharmacy benefit and are not part of the PDL.

- Drug Efficacy Study Implementation (DESI) “less than fully effective” drug products
- Anti-obesity agents
- Experimental/ research drugs
- Cosmetic drugs
- Immunization agents
- Nutritional/diet supplements
- Blood and blood plasma products
- Fertility promotion agents
- Erectile dysfunction agents
- Cosmetic hair growth agents
- Drugs from manufacturers that do not participate in the Fee-For-Service Medicaid Drug Rebate Program
- Diagnostic products
- Medical supplies and Durable Medical Equipment (DME) except: syringes, needles, lancets, alcohol swabs, spacers, preferred diabetes test strips, peak flow meters (Astech, Assess, Peak Air brands, maximum two per year), vaporizer (limit of 1 per 3 years), humidifier (limit of 1 per 3 years)
- Mirena

## LIMITATIONS

### DAYS SUPPLY DISPENSING LIMITATIONS

UnitedHealthcare Community Plan members may receive up to a one-month supply of a specific medication per prescription order or prescription refill. A medication may be reordered or refilled when ninety percent (90%) of the medication has been utilized for a controlled substance and eighty-five percent (85%) of the medication has been utilized for a non-controlled substance. If a claim is submitted before 90% percent of the medication has been used for a controlled substance or submitted before 85% of the medication has been used for a non controlled substance, based on the original day supply submitted on the claim, the claim will reject with a "refill too soon" message.

### QUANTITY LIMITATIONS

Prescriptions for monthly quantities greater than the indicated limit require a prior authorization request. See the Prior Authorization section for more details.

### EFFICIENT MEDICATION DOSING QUANTITY LIMITATIONS

UnitedHealthcare Community Plan’s Efficient Medication Dosing Program is designed to consolidate medication dosage to the most efficient daily quantity to increase adherence to therapy and also promote the efficient use of health care dollars.

The limits for the program are based on FDA approval for dosing and the availability of the total daily dose in the least amount of tablets or capsules. Quantity limits in the prescription claims processing system will limit the dispensing to consolidate dosing. The pharmacy claims processing system will prompt the pharmacist to request a new prescription order from the physician.

### STEP THERAPY

Step therapy requires a trial of one drug before advancing to other drugs. Certain drugs on the PDL are routinely covered only after a sufficient trial of an indicated first-line agent has been adequately tried and failed. While lower cost PDL alternatives may be appropriate in many instances, other non- PDL alternatives are available with prior authorization. Please see the Prior Authorization section for more details.

### MEDICATIONS REQUIRING DIAGNOSIS

UnitedHealthcare Community Plan requires that the diagnosis for prescriptions in certain classes match the FDA-approved use or a use supported by current published evidence. Drugs in scope will list “Diagnosis required” in the Requirements and Limits section on the PDL. The diagnosis will be verified at the point-of-sale by the pharmacy claims processing system. If a matching diagnosis is not found in the medical claim file or on the pharmacy drug claim, the prescription will be rejected at the pharmacy. The pharmacist may then contact the prescriber to verify the diagnosis and submit it on the claim.

## **PRIOR AUTHORIZATION OF NON-PDL MEDICATIONS**

The drugs in the PDL have been selected to provide the most clinically appropriate and cost-effective medication options for our members. There may be occasions where an unlisted drug is needed for the proper medical management of a specific patient. In those instances, please submit a prior authorization request.

You can get prior authorization request forms by visiting <http://www.uhccommunityplan.com/health-professionals.html> and entering your state, or by calling the UnitedHealthcare Community Plan Pharmacy Department at 800-310-6826.

To obtain authorization, you must fax the appropriate Prior Authorization form to the UnitedHealthcare Community Plan Pharmacy Department:

**Fax: 866-940-7328**

### **NON-PDL DRUGS – 3-DAY TEMPORARY SUPPLY OVERRIDES**

To help ensure the use of PDL drugs, all non-PDL drugs should be discussed with the prescribing physician. When a patient cannot reach their physician immediately and **there is an immediate need for the medication, the claim processing system will accept an override to permit a one-time dispensing of a 3-day supply of the newly prescribed non-PDL drug.**

The pharmacy must submit a claim for a 3-day supply, with a Prior Authorization (PA) Type of “8” and Prior Authorization number of “0000000120.”

Availability is subject to the patient’s benefit plan. For assistance, pharmacies may call 800-310-6826.

### **PDL SUGGESTIONS**

Providers who wish to propose PDL suggestions can forward the request along with supporting clinical documentation from medical literature to the UnitedHealthcare Community Plan Director of Pharmacy Services by either mail or email:

UnitedHealthcare Community Plan  
Attn: Director of Pharmacy Services  
1001 Brinton Road  
Pittsburgh, PA 15221  
Email: [pdl\\_management@uhc.com](mailto:pdl_management@uhc.com)

Suggestions will be reviewed at the next available P&T Committee meeting.

Thank you.
