

EVV Service Bill Codes – October 1, 2023 v12.0
Revision History

Effective Dates	Revision Description
6/1/2019 – 7/2/2019	Created for the 6/1/2019 release of the EVV Aggregator.
7/3/2019 – 7/15/2019	Updated based on TMHP SR 6861292.
7/16/2019 – 8/18/2019	Updated for publication on the HHSC EVV Website: - Added columns in orange. - Updated the Unit Match on all CDS and SRO services to reflect a bypass on the claims matching process for units of service due to inconsistencies with other programs. All other critical data elements will be matched.
8/19/2019 – 10/7/2019	Formatting Changes: - Added a column 'Bypass Claim Units Match?' to indicate when units are bypassed in the EVV Aggregator claims match. - Removed the column called 'Short Description' since it duplicates the 'Service' column. - Added an 'Acronyms' section to list acronyms and their descriptions used in the EVV Service Bill Code tables. Service Changes: - Updated all LTC CLASS services (Service Group 2) to indicate that units on the claim will not be matched to units on the visit transaction. - Updated HCS/TxHmL service for Respite and Day Habilitation to indicate that claims will not be matched for EVV until new bill codes can be established to distinguish in-home service delivery from out-of-home service delivery. Note: EVV Clock-in and Clock-out is required when these services begin or end in the home. - Corrected an error in the HCPCS/Modifiers for Texas Home Living CFC PAS/HAB CDS service (Service Group 15, Service Code 10CFV).
10/8/2019 – 6/14/2020	Formatting Changes: - Added a column 'Bypass EVV Claim Match and Apply EVV07?' to indicate when the EVV claims matching process is bypassed in the EVV Aggregator (EVV Claims Match Result Code EVV07). Service Changes: - Updated the EVV Aggregator Claims Match Begin Effective Date for all programs, services, and service delivery options affected by the 21st Century Cures Act due to the delayed EVV start date from 1/1/2020 to 1/1/2021. - Updated all LTC CLASS (Service Group 2) and LTC DBMD (Service Group 16) services to indicate these services are bypassing EVV units matching in the EVV Aggregator claims match. - Updated LTC CLASS CFC PAS/HAB service (Service Group 2, Service Code 10CFC T2026) column 'Bypass EVV Claim Match and Apply EVV07' to a yes to indicate that this service is bypassing EVV claims matching in the EVV Aggregator until new bill codes can be established to distinguish between EVV services and non-EVV services. Note: When billing for EVV services, an EVV Clock-in and Clock-out is required when services begin and/or end in the home. This bypass will avoid unnecessary EVV claim denials due to an EVV visit transaction never having been created for a non-EVV service. This is a temporary solution until new billing codes can be created to distinguish between EVV-required and non-EVV required services. - Updated LTC DBMD CFC PAS/HAB service (Service Group 16, Service Code 10CFC T2026) column 'Bypass EVV Claim Match and Apply EVV07' to a yes to indicate that this service is bypassing EVV claims matching in the EVV Aggregator until new bill codes can be established to distinguish between EVV services and non-EVV services. Note: EVV is not currently required for DBMD. This bypass will avoid unnecessary EVV claim denials due to an EVV visit transaction never having been created for a non-EVV service. This is a temporary solution until new billing codes can be created to distinguish between EVV-required and non-EVV required services. - Updated all LTC HCS (Service Group 12) and TxHmL (Service Group 15) procedure effective end dates from 2/29/2020 to 12/31/9999.

EVV Service Bill Codes – October 1, 2023 v12.0
Revision History

Effective Dates	Revision Description
6/15/2020 – 9/30/2020	Formatting Changes: - Added new column 'EVV Claim Denial for No Matching Visit Effective Date' to the MCO, C21 AC FFS, CMS LTC FFS, and CARE LTC FFS sections to indicate the begin date a claim for an EVV-required service will be denied if there isn't an accepted EVV visit transaction in the EVV Portal that matches the claim. Services with an effective date of 12/1/2020 are part of the Cures Act EVV Expansion and included in the EVV Practice Period beginning 7/1/2020 and ending 11/30/2020. See the TMHP article for more information about the practice period: http://www.tmhp.com/News_Items/2020/05-May/05-26-20%20Cures%20Act%20EVV%20The%20EVV%20Practice%20Period%20Begins%20July%201.pdf. - Added new section 'CARE LTC FFS EVV Services' to include HCS & TxHmL program services requiring EVV beginning 12/1/2020. - Added new column 'Effective Date for EVV Claim Denial for No Matching Visit' to the MCO, C21 AC FFS, CMS LTC FFS, and CARE LTC FFS sections to indicate the begin date a claim for an EVV-required service will be denied if there isn't an accepted EVV visit transaction in the EVV Portal that matches the claim. - Renamed column 'Bypass Claim Units Match' to 'Units Matched During EVV Claims Matching?' to clarify when units on the claim are matched to units on the EVV visit transaction during the EVV claims matching process. - The following columns have been removed from the MCO, C21 AC FFS, and CMS LTC FFS sections: - Unit Conversion Factor - EVV Aggregator Claims Match Begin Effective Date - EVV Aggregator Claims Match Begin Effective End Date - Bypass EVV Claim Match and Apply EVV07? - Bill Code Changed for 9/1/2019? - EVV Service (Required or Optional) for 9/1/2019? - EVV Services Required Starting 1/1/2021? Note: New column 'Effective Date EVV Claim Denial for No Matching Visit' has replaced this column and the date has been updated to align with the HHSC Cures Act EVV Expansion timeline. See the HHSC Cures Act EVV webpage for more information https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/resources/electronic-visit-verification/21st-century-cures-act. - In the 'Revision History' tab, replaced the 'Version' column with 'Effective Dates'. - Minor changes to font size and color. Service Changes: - Updated the following services to indicate units on the claim will be matched to units on the EVV visit transaction during the EVV claims matching process: - Long-Term Care Services: - CLASS CFC PAS/HAB (Service Group 2, Service Code 10CFC) - DBMD CFC PAS/HAB (Service Group 16, Service Code 10CFC) - Updated the following services to indicate units on the claim will not be matched to units on the EVV visit transaction during the EVV claims matching process: - Acute Care Services: - HCBS-AMH Supported Home Living (HCPCS S5130) - YES Waiver Respite (In-Home) (HCPCS T2027) - Long-Term Care Services: - HCS CFC PAS/HAB (Service Group 12, Service Code 10CFC) - TxHmL CFC PAS/HAB (Service Group 15, Service Code 10CFC) - Added LTC CAS SRO service (Service Group 7, Service Code 17DS) because this service will require EVV by Dec. 1, 2020, but was not included in the previous version of the bill code table.

EVV Service Bill Codes – October 1, 2023 v12.0
Revision History

Effective Dates	Revision Description
10/1/2020	Formatting Changes: - Certain program and service names were updated in all applicable sections to be more consistent with the "EVV-Required Programs, Services, and Service Delivery Options" document on the HHS EVV webpage at: https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/resources/electronic-visit-verification#programs-and-services-required-to-use-evv - CMBHS was added to the 'C21 AC FFS EVV Services' tab. - The STAR+PLUS/MMP bill codes with an 'Effective End Date' of 8/31/2019 were removed from the 'MCO EVV Services' tab. - The 'Effective Date for EVV Claim Denial for No Matching Visit' was corrected for LTC CLASS CFC PAS/HAB (Service Group 2, Service Code 10CFC T2026) and In-Home Respite (Service Group 2, Service Code 11 G0100) from 11/1/2019 to 12/1/2020. - The 'Claims Place of Service' column in the 'CARE LTC FFS EVV Services' section was updated to only display the code relevant to EVV services: 12 (Home Location). This change was made because EVV is only required to capture services that require an in home visit. Service Changes: - Effective Oct. 1, billed units on claims for the following EVV-required services will be matched to the billable units on the EVV visit transaction during the EVV claims matching process: - All services delivered through the service responsibility option listed in the 'MCO EVV Services' tab; - LTC CAS Personal Attendant Services - Level 1 and Level 2 (Service Group 7, Service Code 17DS G0755 and G0756); and - LTC CLASS CFC PAS/HAB (Service Group 2, Service Code 10CFC T2026). The 'Units Matched During EVV Claims Matching?' columns in the 'MCO EVV Services' and 'CMS LTC FFS EVV Services' sections were updated to 'Yes' to indicate this change. Program providers and FMSAs can practice units matching on EVV claims during the Cures Act EVV practice period and these claims will not be denied for an EVV mismatch. The practice period ends on Nov. 30. Read more about the practice period at: http://www.tmhp.com/news/2020-06-27-update-cures-act-evv-evv-practice-period-begins-july-1
11/9/2020	Formatting Changes: - The service names in the 'CARE LTC FFS EVV Services' section for Day Habilitation and In-Home Respite in the HCS program were updated to match the HCS and TxHmL Bill Code Crosswalk. Additional information has been added to the bottom of the table noting that for HCS these services only require EVV when provided in own home or family home settings. - The Claims Place of Service column in the 'CARE LTC FFS EVV Services' section for CFC PAS/HAB added the community setting locations which require EVV. Service Changes: - The Effective Date for EVV Claim Denial for No Matching Visit has been updated for services impacted by the Cures Act expansion to reflect the extension of the new EVV implementation date to Jan. 1, 2021. More information is available in the Cures Act EVV Practice Period Extended Through Dec 31 article on the HHS EVV webpage at https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/resources/electronic-visit-verification.

EVV Service Bill Codes – October 1, 2023 v12.0

Legend

Column Title	Column Description
Effective Date for EVV Claim Denial for No Matching Visit	The begin date (based on date of service) that a claim for an EVV-relevant service will be denied when there isn't an accepted EVV visit transaction that matches the claim. The EVV visit transaction must be accepted in the EVV Portal prior to billing the claim.
End Date for EVV Claim Denial for No Matching Visit	The end date (based on date of service) that a claim for an EVV-relevant service will be denied when there isn't an accepted EVV visit transaction that matches the claim. The EVV visit transaction must be accepted in the EVV Portal prior to billing the claim.
EVV Required/Optional?	EVV Optional services are services which are commonly delivered in situations similar to EVV required services. HHSC allows, but does not require, these services to be documented using the EVV system. Visits for EVV Optional services, if verified by the program provider, FMSA, or CDS employer are transmitted to the EVV Portal. Visits for EVV Optional services are subject to the same system requirements and edits as an EVV visit. EVV claims matching is not performed on claims for EVV Optional services. Program providers, FMSAs, and CDS employers must follow Medicaid program requirements for documenting service delivery. Instructions: - Required – The use of EVV is required for these services. - Optional – The use of EVV is optional for these services. Service providers may use the EVV system to capture EVV visits for these services. EVV claim matching is not performed on claims for EVV Optional services.
Healthcare Common Procedure Coding System (HCPCS)	A collection of codes that represent procedures and services provided to individuals.
Mod 1-4	A modifier provides how the reporting physician or provider can indicate that a service or procedure has been altered by some specific circumstance but not changed in its definition or code. There can be up to 4 modifiers associated with a HCPCS code.
Payer	The organization that processes the claim for payment or denial. Payers include: 1. The Texas Health and Human Services Commission (HHSC) - Claims are for EVV Acute Care services in Fee-for-Service (FFS) and processed by the Texas Medicaid & Healthcare Partnership (TMHP) Compass21 system on behalf of HHSC. 2. Long-Term Care (LTC) - Organization that processes claims for LTC services in FFS. 3. Managed Care Organization (MCO) - Organization that processes claims for services in Managed Care. By Oct. 1, 2020 all EVV claims for Managed Care services must be submitted to TMHP for claims matching. Once the claims matching result is obtained, the claim will be forwarded to the MCO with whom the individual member is enrolled at the time of service delivery for final processing.
Proc Code Qualifier	Procedure code for the service.
Procedure Effective Begin Date	The date when the service billing code became available for use in the Texas Medicaid Program. The date corresponds to the service delivery date, not the claim submission date.
Procedure Effective End Date	The date when the service billing code is no longer to be used. The date corresponds to the service delivery date, not the claim submission date. If the date is 12/31/9999 this means that there is no effective end date.
Program	The name of the program which services are available.
Service	The name of the service.
Service Code	A code that identifies the LTC service within the program and is only used in the FFS programs for LTC.
Service Group	A code that identifies the LTC program for the service and is only used in the FFS programs for LTC.
Unit Type	The amount of time assigned to a single unit when delivering the service to a member e.g. 15 minute increments, one hour increments.
Units Matched During EVV Claims Matching?	A 'Yes' or 'No' in this column indicates if the number of Units on the EVV-relevant claim is matched to the number of Units on the EVV visit transaction. Some services are not designed for this type of match.
