The following list(s) of procedure and/or diagnosis codes is provided for reference purposes only and may not be all inclusive. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies may apply.

## Benefit Considerations

Most Oxford plans have a specific exclusion for breast reduction surgery except as required by the [Women's Health and Cancer Rights Act of 1998](#). Refer to the member's specific benefit plan document for applicable coverage.

All plans cover breast reduction surgeries that qualify under the Women's Health and Cancer Rights Act of 1998. If a surgery does not qualify under the Women's Health and Cancer Rights Act of 1998, some plans may allow breast reduction surgery if we determine the surgery will treat a physiologic functional impairment. However, some plans exclude breast reduction surgery even if it treats a physiologic functional impairment. Refer to the member specific benefit plan document to determine coverage.

For breast surgery for treatment of gender dysphoria, refer to the Clinical Policy titled [Gender Dysphoria Treatment](#).
