

UnitedHealthcare Pharmacy Clinical Pharmacy Programs

Program Number	2024 P 1083-15
Program	Prior Authorization/Notification
Medication	Promacta [®] and Alvaiz [™] (eltrombopag)
P&T Approval Date	1/2012, 2/2013, 2/2014, 2/2015, 2/2016, 12/2016, 11/2017, 11/2018,
	11/2019, 11/2020, 11/2021, 1/2022, 1/2023, 1/2024, 6/2024
Effective Date	8/1/2024

1. Background:

Promacta and Alvaiz (eltrombopag) are a thrombopoietin receptor agonists indicated for the treatment of thrombocytopenia in adult and pediatric patients (1 year and older for Promacta and 6 years and older for Alvaiz) with persistent or chronic immune thrombocytopenia (ITP) who have experienced an insufficient response to corticosteroids, immunoglobulins, or splenectomy, for the treatment of thrombocytopenia in patients with chronic hepatitis C to allow the initiation and maintenance of interferon-based therapy, and for the treatment of patients with severe aplastic anemia who have had an insufficient response to immunosuppressive therapy. Promacta is also approved in combination with standard immunosuppressive therapy for the first line treatment of adult and pediatric patients 2 years and older with severe aplastic anemia.

Promacta and Alvaiz should be used only in patients with ITP whose degree of thrombocytopenia and clinical condition increase the risk for bleeding.

Promacta and Alvaiz should be used only in patients with chronic hepatitis C whose degree of thrombocytopenia prevents the initiation of interferon-based therapy or limits the ability to maintain interferon-based therapy. Safety and efficacy have not been established in combination with direct-acting antiviral agents used without interferon for treatment of chronic hepatitis C infection.

Members will be required to meet the coverage criteria below.

2. Coverage Criteria^a:

A. Chronic immune thrombocytopenia (ITP)

1. Initial Authorization

- a. **Promacta or Alvaiz** will be approved based on **both** of the following criteria:
 - (1) Diagnosis of chronic immune thrombocytopenia (ITP)

-AND-

(2) Patient has had an insufficient response to a previous treatment (e.g., corticosteroids, immunoglobulins, thrombopoietin receptor agonists, splenectomy)

Authorization will be issued for 6 months.

2. Reauthorization

- a. **Promacta or Alvaiz** will be approved based on the following criterion:
 - (1) Documentation of positive clinical response to Promacta or Alvaiz therapy

Authorization will be issued for 12 months.

B. Chronic hepatitis C-associated thrombocytopenia

1. Initial Authorization

- a. **Promacta or Alvaiz** will be approved based on **both** of the following criteria:
 - (1) Diagnosis of chronic hepatitis C-associated thrombocytopenia

-AND-

- (2) **One** of the following:
 - (a) Planning to initiate and maintain interferon-based treatment

-OR-

(b) Currently receiving interferon-based treatment

Authorization will be issued for 6 months.

2. Reauthorization

- a. **Promacta or Alvaiz** will be approved based on **both** of the following criteria:
 - (1) Documentation of positive clinical response to Promacta or Alvaiz therapy

-AND-

(2) Patient is currently on antiviral interferon therapy for treatment of chronic hepatitis C

Authorization will be issued for 12 months.

C. Aplastic Anemia

1. Initial Authorization

a. **Promacta or Alvaiz** will be approved based on **both** of the following criteria:

(1) Diagnosis of severe aplastic anemia

-AND-

- (2) **One** of the following
 - (a) Used in combination with standard immunosuppressive therapy (e.g., Atgam [antithymocyte globulin equine], Thymoglobulin [antithymocyte globulin rabbit], cyclosporine)

-OR-

(b) History of failure, contraindication, or intolerance to at least one course of immunosuppressive therapy (e.g., Atgam [antithymocyte globulin equine], Thymoglobulin [antithymocyte globulin rabbit], cyclosporine)

Authorization will be issued for 6 months.

2. Reauthorization

- a. **Promacta** will be approved based on the following criterion:
 - (1) Documentation of positive clinical response to Promacta or Alvaiz therapy

Authorization will be issued for 12 months.

^a State mandates may apply. Any federal regulatory requirements and the member specific benefit plan coverage may also impact coverage criteria. Other policies and utilization management programs may apply.

3. Additional Clinical Rules:

• Notwithstanding Coverage Criteria, UnitedHealthcare may approve initial and re-authorization based solely on previous claim/medication history, diagnosis codes (ICD-10) and/or claim logic. Use of automated approval and re-approval processes varies by program and/or therapeutic class.

Program	Prior Authorization/Notification – Promacta (eltrombopag)
Change Control	
2/2014	Annual review. Increased authorization to 60 months for ITP.
9/2014	Administrative change – Tried/Failed exemption for State of New
	Jersey removed.
2/2015	Annual review. Added criteria for new aplastic anemia indication.
	Updated background and references.
2/2016	Annual review. Revised reauthorization criteria for thrombocytopenia
	due to chronic hepatitis C. Extended initial authorization to 6 months
	for chronic hepatitis C and aplastic anemia. Updated background and
	references.
12/2016	Annual review. Reduced ITP authorization to 6 months and added
	reauthorization criteria. Updated background and references.
11/2017	Annual review. Updated references.
11/2018	Annual review. Revised coverage rationale to rename idiopathic
	thrombocytopenic purpura to immune thrombocytopenia. Updated
	background and references.
11/2019	Annual review. Revised coverage rationale for aplastic anemia.
	Updated background and references.
11/2020	Annual review. No changes to coverage rationale. Updated reference.
11/2021	Annual review. No changes to coverage criteria. Updated reference.
1/2022	Revised try/fail criteria to insufficient response. Updated reference.
1/2023	Annual review with no changes to coverage criteria. Updated
	background per label and added state mandate.
1/2024	Annual review. Reformatted criteria without change to clinical intent.
	Updated background per label and updated reference.
6/2024	Added Alvaiz to the program.
