

2023 Summary of Changes to Advance Notification and Prior Authorization Requirements

These changes are part of UnitedHealthcare's ongoing responsibility to evaluate our medical policies, clinical programs and health benefits compared to the latest scientific evidence and specialty society guidance. Using evidence-based medicine to guide coverage decisions supports quality patient care and reflects our shared commitment to the Triple Aim of better care, improved health outcomes and lower costs.

Although prior authorization requirements may be added/updated/removed for certain codes, post-service determinations may still be applicable based on criteria published in medical policies, local/national coverage determination criteria, and/or state fee schedule coverage.

Specific state rules may apply. For more information on whether authorization is required or not, please go to UHCprovider.com and click on the Link button in the top right corner. Then, select the Prior Authorization and Notification tool tile on your Link dashboard.

For more information about program changes, view to the [Network News](#) on UHCprovider.com. To see current prior authorization requirements for all plans, please visit UHCprovider.com/priorauth > [Advance Notification and Plan Requirement Resources](#) > Select a Plan Type.

Stay informed about COVID-19 updates by visiting [COVID-19 Updates and Resources](#) on UHCprovider.com.

Announcement Date: December 1, 2023

This month's published changes affect the following plans (click the hyperlinks in the chart to see current plan requirements):
